

ENGINEERING CORPORATE PRACTICE (MINOR)

For the minor, you'll take five courses:

Code	Title	Hours
Engineering Courses		6
EG 40421/44421	Integrated Engineering and Business Fundamentals	
EG 40422	Advanced Integrated Engineering and Business Topics	
Economics Course		3
ECON 20010/20011/10010/10011	Principles of Microeconomics	
ECON 20020/10020	Principles of Macroeconomics	
ECON 30010	Intermediate Economic Theory–Micro	
Business Courses		6
BAEG/BASC/ACCT 20100	Foundations of Accountancy ¹	
or BAEG/BASC/FIN 20150	Foundations of Finance	
BAEG/MGTO 30500	Essentials Of Innovation ¹	
BAEG/MGTO 30510	Social Entrepreneurship	
BAEG/MGTO 41500	Idea Discovery Lab	
BAEG 20110/MARK 20100	Foundations of Marketing	
Total Hours		15

¹ Two courses from the Mendoza College of Business must be taken, and BAEG 20100 Foundations of Accountancy or BAEG 20150 Foundations of Finance must be included in your selection (you may also select both finance and accounting to complete the minor). You must register for the BAEG designated sections. Only 1 Mendoza course may be taken in a given semester.

Three of the courses may be double counted towards the minor and engineering degree requirements. Those include Econ, fulfilling the University social science requirement, plus the EG 40000 courses, counting toward your engineering elective requirements.

For AE's graduating in 2027 or beyond, only EG 40421 can double count for both the MECF minor and Aerospace Major by satisfying your AE Professional Development elective. EG 40422 will be considered an extra class.
