

STUDY ABROAD & OFF-CAMPUS PROGRAMS

Notre Dame Global's Study Abroad offers over 70 study abroad programs in more than 30 countries during both the academic year and summer.

For over 55 years, Notre Dame has made it possible for students to earn credits toward graduation by participating in study abroad programs. Study in another tradition, direct personal experience of another language and culture, and travel, all broaden and deepen the liberal education of the whole person to which the University has always been committed. Study abroad programs are one of the many opportunities open to students seeking an international experience that will complement their study plan.

Without delaying graduation, international experiences make a unique contribution to the excellence of liberal education in the undergraduate colleges and frequently enhance students' career development. Students earn Notre Dame credit for courses taken in Notre Dame programs and their grades are included in the Notre Dame GPA.

During the semester abroad, students are expected to carry a course load of 15 credits. Some courses taught abroad fulfill core University Ways of Knowing requirements. For major credit in any college department, students must consult with departmental advisors. Course listings for hundreds of courses in these programs are available on the Study Abroad website and through Class Search on the Registrar's website.

Qualified students from all undergraduate colleges may apply to spend a semester or a year abroad in one of our study abroad programs. Participation is typically during the junior year, but some programs are designed to accommodate sophomores as well as seniors. Currently, only select study abroad programs are approved by the Department of Veteran Affairs to be certified under education benefit chapters. To determine if a program is approved, reach out to Notre Dame Global or the primary School Certifying Official for VA educational benefits in the Office of the Registrar.

Many programs can be selective and students are encouraged to apply to more than one program. Offers of admission are made in accordance with program requirements, at the discretion of the Study Abroad staff in consultation with faculty and staff of the University.

Students considering more than one single semester or academic year program should carefully review their majors and minors to ensure that such study does not delay the completion of graduation requirements. Participation in a summer study abroad program does not affect a student's application to a semester or yearlong program.

Study abroad programs may sometimes be cancelled due to circumstances beyond the control of the University.

Students are eligible to apply for a leave of absence through their college for study in a program offered by another college or university. *They may not, however, take a leave of absence to attend international programs at sites (schools) where Notre Dame offers its own study abroad programs.* The information published here summarizes the planned study abroad opportunities at the University of Notre Dame for the 2025–26 academic year. Please consult the Study Abroad office's website at <https://studyabroad.nd.edu/> (<https://studyabroad.nd.edu/>) for the latest information.
